BCC Cryogenics Course 2021

4 half-days
course

April 2021

Mon 12 & Tues 13 / Thurs 15 & Fri 16

Organised by the British Cryogenics Council

Course to be hosted by video conference

Oxford Instruments NanoScience Proteox System

This four-day course will provide attendees with a brief introduction to a range of topics in cryogenic engineering including:

- **Cryostat design**
- **Safety**
- **Cooling techniques**
- **Ultra-low temperature systems**
- **Large-scale cryogenics**
- **Instrumentation**
- **Cryogenic applications**

Target audience:

The course is aimed at those new to low temperature systems, including engineers, postgraduate students, undergraduates, technicians, and other practitioners.

Key dates:

Registration opening: **5 Mar 2021**

Registration deadline: **5 Apr 2021**
